PROFESSIONAL SUMMARY

A highly motivated and detail-oriented Web Developer with hands-on experience in building modern, responsive web applications using HTML, CSS, JavaScript, React, and Tailwind CSS. Skilled in developing seamless user interfaces, integrating Express and Node.js for backend functionality, and managing data with MongoDB. Committed to delivering high-quality web solutions and continuously enhancing technical skills.

EXPERIENCE

Web Developer — GeoGo Infotech   Jan 2025 - Present
(Technologies: JavaScript, HTML/CSS, SEO)
- Leading the development and management of the ChikuCab project, delivering key features, updates, and optimizations to enhance functionality and user experience.
- Spearheaded on-page optimization efforts, including meta descriptions and schema markup, which improved click-through rate and led to a substantial increase in qualified leads.
- Collaborating with teams to ensure smooth project delivery aligned with business requirements.
- Collaborated on frontend development using HTML, CSS, and JavaScript to create responsive and visually appealing web applications.
- Worked closely with the team to ensure seamless user experiences and cross-browser compatibility.
- Contributed to project documentation and provided actionable suggestions for improving UI/UX designs.

PROJECTS

Nighthawk (software solutions and services)   Live   ○ Code
(Technologies: JavaScript, react.js, Tailwind CSS, HTML, React.js, CSS, Node.js, express, MongoDB)
- Developed a comprehensive software solutions and services website using the MERN stack, showcasing multiple offerings and case studies to attract potential clients.
- Utilized Tailwind CSS to create a modern, responsive, and visually appealing interface that adapts seamlessly across devices and screen sizes.
- Demonstrated proficiency in implementing clean, modular, and maintainable code with a strong focus on front-end best practices.

Chat App   Live   ○ Code
(Technologies: React, Tailwind CSS, Socket.io, JavaScript, Node.js, MongoDB, Express)
- Developed a dynamic, real-time chat application using the MERN Stack and Socket.io.
- Designed a responsive and modern user interface with React and Tailwind CSS, ensuring an intuitive user experience across all devices.
- Implemented MongoDB with an Express.js backend, efficiently integrating Axios for robust API communication.
- Leveraged Socket.io to enable real-time messaging between users.
- Secured user authentication and authorization using bcrypt for password hashing and JWT for token-based verification during login and signup processes.

TECHNICAL SKILLS

Languages & Core: C/C++, JavaScript, Data Structures and Algorithms (DSA), SQL, MySQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux
Backend & Database: Node.js, Express.js, MongoDB, REST APIs
Tools & Technologies: Git, GitHub, VS Code, Postman, bcrypt, JWT, MongoDB Atlas, Redux DevTools
Interests: Creating real-world websites, Playing Cricket, Listening to Music, Movie Geek

ACHIEVEMENTS

Skillfully tackled over 650 problems on LeetCode, showcasing a robust command of coding and an ability to handle challenging programming tasks through the use of DSA.

EDUCATION

Indian Institute of Information Technology, Ranchi, India   **2020–2024**
Bachelor of Technology (B.Tech)   CGPA: 8.52
